DIV. OF OIL, GAS & MINING

Dear April,

Thank you for working with me to clear up the issues with our reclamation bonds. Attached are our responses to the 4 citations we received August 15, 2014.

Citation MN-2014-60-6 is for the 2103 annual report for the Neal mines is now complete.

Citation MN-2014-60-5 is for the 2013 annual report for the Harrison mine is now complete.

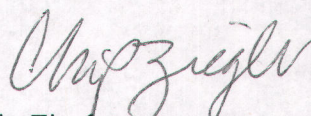

Citation MN-2014-60-3 is for the 2013 annual report and upgraded bond for the Tom Taylor mine. The annual report is enclosed, and per our discussion, the current reclamation bond is for the behalf of the BLM and does not list DOGM. We are having trouble getting this bond replaced. We have been slowly removing the items from this area, and should be able to be ready to seed the land in May of 2015 so that it can be removed from this bond and satisfy DOGM's concerns.

Citation MN-2014-60-4 is for the 2007-2013 annual reports and large mine plan for the area listed as Cowboy Bandana mine. The annual reports are enclosed. Based on our discussion, we plan to do an inventory of this property, remove the areas already reclaimed, and divide the bond up by mine. This is a large undertaking and we expect to need a few months' time of warm weather to accomplish the first stage. As we enter the winter, this will become increasingly difficult, so we request to set a completion date of the inventory and requests for changing the bonds to August 1, 2015.

Please let me know if this letter is sufficient to get extra time to correct the issues in these citations. I plan to travel to Utah October 20, can we meet to discuss?

Sincerely,

ZIEGLER CHEMICAL & MINERAL CORP.
